asammdf debug: https://github.com/danielhrisca/asammdf/issues/new

```python
[1]: import platform
     import sys
     from pprint import pprint

     pprint("python=" + sys.version)
     pprint("os=" + platform.platform())

     try:
         import numpy
         pprint("numpy=" + numpy.__version__)
     except ImportError:
         pass

     try:
         import asammdf
         pprint("asammdf=" + asammdf.__version__)
     except ImportError:
         pass
```

```
'python=3.8.0 (default, Oct 28 2019, 16:14:01) \n[GCC 9.2.1 20191008]'
'os=Linux-5.3.0-42-generic-x86_64-with-glibc2.29'
'numpy=1.18.2'
'asammdf=5.19.8.dev0'
```
